

# SAP EDUCATION

## SAMPLE QUESTIONS: C\_TADM51\_731

SAP Certified Technology Associate - System Administration (Oracle DB) with SAP NetWeaver 7.31

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

### Questions

1. How are asynchronous update requests of SAP transactions assigned to work processes of type Update V1 or Update V2?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	If V2 update work processes are not configured, V1 work processes handle all update requests.
b)	<input type="radio"/>	If V2 update processes are configured, V2 update requests will only be processed in available V2 update work processes.
c)	<input type="radio"/>	The processing priority for V1 and V2 update requests is determined by the corresponding value of the parameters rdisp/wp_no_vb and rdisp/wp_no_vb2.
d)	<input type="radio"/>	All update requests are assigned to V1 and V2 work processes in a round-robin fashion.

2. A customer wants to implement a change management process based on the IT Infrastructure Library (ITIL) standards.

Which of the following do you recommend using for the implementation?

Please choose the correct answer.

a)	<input type="radio"/>	Implement the transport workflow process of an SAP system based on AS ABAP.
b)	<input type="radio"/>	Implement Change Request Management in SAP Solution Manager.

c)	<input type="radio"/>	Implement maintenance optimizer in SAP Solution Manager.
d)	<input type="radio"/>	Implement Enhanced Change and Transport System of an SAP system based on AS ABAP and AS Java.

3. You have started the import of a transport request. It seems that the DDIC Import (DD IMPORT) phase takes a very long time.

What can you do to check whether the import is still running?  
Please choose the correct answer.

a)	<input type="radio"/>	In transaction Data Browser (SE16), check that there is no content in table E070.
b)	<input type="radio"/>	On operating system level, check that the R3trans process is still running.
c)	<input type="radio"/>	In transaction Process Overview (SM50), check that at least one work process of type Dialog is in status running.
d)	<input type="radio"/>	In transaction Simple Job Selection (SM37), check that the job RDDIMPDP is still running.

4. You execute transaction Transport Management System (STMS) and switch to the import queue of an SAP system of the transport domain. Here you find that the Import All Requests button is missing but the Import Request button is available (see attached screenshot).

What is the most likely reason for this behavior?

The screenshot shows the SAP STMS 'Import Queue: System PSM' window. The window title is 'Import Queue: System PSM'. Below the title bar is a toolbar with various icons. The main content area shows 'Requests for PSM: 0' and a table with columns 'Number', 'Request', 'RC', 'Owner', and 'Short Text'. The table contains one row with the text 'Import queue is empty' highlighted in yellow.

Number	Request	RC	Owner	Short Text
Import queue is empty				

Please choose the correct answer.

a)	<input type="radio"/>	The transport strategy for the PSM system is set to Single Transports.
b)	<input type="radio"/>	There is no consolidation route pointing to the PSM system.
c)	<input type="radio"/>	PSM is a virtual system.
d)	<input type="radio"/>	There is no transport request waiting to be imported into this system.

## Solutions

1 a) Correct	2 a) Incorrect	3 a) Incorrect	4 a) Correct
1 b) Correct	2 b) Correct	3 b) Correct	4 b) Incorrect
1 c) Incorrect	2 c) Incorrect	3 c) Incorrect	4 c) Incorrect
1 d) Incorrect	2 d) Incorrect	3 d) Incorrect	4 d) Incorrect
