SAMPLE QUESTIONS: P_BPX_70

SAP Certified Application Professional – Business Process Expert – print view

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

Questions

1. Your company's Enterprise Architecture (EA) Governance demands you to track triggers and state changes in the organization and how they affect business scenarios. Therefore, you decide to model Event Views according to the SAP Enterprise Architecture Framework (EAF).

Which of the following is a benefit of using an Event View in this scenario?

Please choose the correct answer.

a)	O	It measures the interaction between actors, processes, and functions.
b)	O	It explicitly identifies and stores triggers and process control steps to support regulatory compliance.
c)	O	It could be used to associate driver goals and objectives to events.
d)	O	It provides a chain of command of owners, events, and decision makers in the organization.

2. You are implementing the end-to-end scenario "Integrating Sourcing and Procurement". The "Change Purchase Order Approval Process" requires a composite application.

What information for the composite application should you ensure to document in a technical specification before you move to a Solution Operation?

Note: There are 2 correct answers to this question.

a)	O	Composite technical details such as UI layout, composite process flow, business objects
b)	O	Test data
c)	O	Requirements for the Incident Management process
d)	O	Candidates for Service Operations

3. What benefit targets for implementing SAP solutions as part of Business Process Management (BPM) initiatives can be established using the SAP Value Lifecycle Manager (VLM)?

Note: There are 2 correct answers to this question.

a)	O	Targets for the Net Present Value (NPV) for the SAP solutions

		implementations that are part of BPM initiatives.
b)	O	Targets for process-level improvements, as measured by performance indicators, to be achieved by BPM initiatives.
c)	O	Targets for total implementation costs for SAP solutions to be put in place as part of BPM initiatives.
d)	O	Targets for the total Cost of Ownership (TCO) of SAP solutions implemented as part of BPM initiatives.

4. What are some key activities you need to execute before setting up Process Communication?

Note: There are 2 correct answers to this question.

a)	O	Define a modeling convention.
b)	O	Define a process communication strategy.
c)	O	Define a process management lifecycle methodology.
d)	O	Define the catalog of personas.

5. Monitoring KPIs with no link to the processes has limited impact on efficiency or customer satisfaction. Therefore, you are asked to provide some key requirements for the tool selection process.

Which key requirements would you recommend?

Note: There are 3 correct answers to this question.

a)	O	Assessment of the technical system application management demands
b)	O	Identification of concrete process weaknesses
c)	O	Support the assessment of business process optimization project success
d)	O	Proactive measurement of company goal attainment
e)	O	Identification of concrete system weaknesses

6. A customer runs a Business Process Management (BPM) practice. They are now considering using SAP NetWeaver BPM, which includes Business Rules Management (BRM).

What advantages of integrated BRM would you outline so they can improve their BPM practice?

Note: There are 2 correct answers to this question.

a)	O	Provide the ability to encapsulate business rules as re-usable services.
b)	O	Provide the ability to manage business rules within BPM.
c)	O	Provide the ability to map business rules to Process Key Performance Indicators (KPI).
d)	O	Provide the ability to standardize and optimize business rules for operational processes.

7. For which of the following Performance Measurements can you use Solution Manager?

Note: There are 2 correct answers to this question.

a)	O	Due List Log Monitoring
b)	O	Throughput and Backlog Indicators
c)	O	Activity-level KPI
d)	O	SAP NetWeaver BPM process instance monitoring

Solutions

1 a) Incorrect	**2** a) Correct	**3** a) Correct	**4** a) Incorrect	**5** a) Incorrect
1 b) Correct	2 b) Correct	3 b) Incorrect	4 b) Correct	5 b) Correct
1 c) Incorrect	2 c) Incorrect	3 c) Correct	4 c) Incorrect	5 c) Correct
1 d) Incorrect	2 d) Incorrect	3 d) Incorrect	4 d) Correct	5 d) Correct
				5 e) Incorrect

6 a) Correct	**7** a) Correct			
6 b) Correct	7 b) Correct			
6 c) Incorrect	7 c) Incorrect			
6 d) Incorrect	7 d) Incorrect
